Important pricing information

These package prices use Florey. If you prefer Mawson or Heysen, please ask for a written estimate for that chapel.

The Tribute and The Legacy include a function-room booking. We will confirm the room, booking time and any catering in your estimate. A room booking does not confirm a catering menu or number of guests.

For burial, these prices cover the listed professional services and items only. Grave plots, cemetery and interment fees, earth or concrete removal, headstones and permanent memorials are additional and will be quoted separately.

Additional transfer or care requirements and optional choices may change the total. Please ask for an itemised written estimate for your specific arrangements.

Additional-fee guide

SENSIBLE FUNERALS | PACKAGE GUIDE SUPPLEMENT

Read this together with your package inclusions. All package prices and the allowances below include GST. Your itemised written estimate confirms what applies to your arrangements. Items already included in your selected package are not charged again.

Transfers and additional care

Standard metropolitan public-hospital transfers within our service range are included, subject to any applicable weight-related charges shown in the online estimator. This also applies to both natural burial packages. **Noarlunga Hospital is outside the included range:** the transfer allowance is $475.

The estimator adds **$475** for a private hospital, private home, nursing home/aged care or other transfer location.

After-hours arrangements, transfers outside stated coverage and requirements not covered by these allowances need confirmation in your written estimate.

Certificates and preparation

The death certificate is included in every package for every service. The attending doctor's medical-certificate allowance is **$300** for transfers other than a public hospital. This is a separate medical certificate, not the included death certificate.

For **Direct Personal/Legacy and Traditional cremation**, add **$350** for open-casket viewing or required in-person identification, charged once if both apply. No $350 fee applies to a closed-casket farewell without in-person identification. Any separate additional-care charges are shown in the online estimator. Basic care remains included. Do not add this preparation fee to another package that already includes the relevant preparation.

Direct Essential remains available only with a valid completed Form 7 identification certificate, the relevant requirements satisfied, and no further in-person identification or viewing needed.

Cemetery, venue and personal choices

Burial and natural burial exclude grave plots, cemetery/interment fees, earth or concrete removal, headstones and permanent memorials. Enfield prices use Wattle 1; Centennial Park prices use Florey. Other rooms need an individual estimate. Church, home and other-venue packages exclude external venue and clergy fees. Catering, upgrades and optional personal choices may add to the total unless included in the selected package.
